AHMAD ISAH

Full-Stack Software Engineer | Mobile & Cloud Architecture

Gombe, Nigeria • +2348061939536 • ahmadisah6293@gmail.com

Portfolio: https://ahmadisah.vercel.app • **LinkedIn:** linkedin.com/in/ahmerthiserh • **GitHub:** github.com/ahmerthiserh

Professional Summary

Full-Stack Software Engineer with proven experience architecting, building, and launching full-cycle mobile and cloud-based applications. Engineering lead behind multi-platform commerce, fintech, and offline-first POS systems across West Africa. Specialized in building fault-tolerant backend services (Node.js, Laravel), responsive cross-platform mobile apps (Flutter, React Native), and high-concurrency payment integrations with automated reconciliation.

Technical Skills

- **Mobile Development:** Flutter, Dart, React Native, Cross-Platform Architecture, Offline Data Sync.
- **Backend & APIs:** Node.js, Express, PHP, Laravel, RESTful APIs, Webhooks, Microservices.
- **Databases & Cloud:** PostgreSQL, MySQL, Redis, MongoDB, Docker, Git, CI/CD Actions.
- **FinTech & Integrations:** Payment Gateways (Paystack, Flutterwave, Stripe), Idempotent Webhook Processing, OAuth2, JWT.

Professional Experience

Vetris Tech | Remote / Nigeria

Lead Software Engineer & Technical Co-Founder | 2024 – Present

- Architected and shipped multi-tenant commerce and mobile banking services, achieving 99.9% platform uptime across high-concurrency transaction periods.
- Built and launched the **Mini Mart** multi-platform commerce ecosystem across Web, Google Play, and the App Store using Flutter and Node.js.
- Implemented real-time catalog search, localized merchant verification, and offline-first client-side data caching.
- Engineered the **V Pay** API gateway, automating virtual bank account generation and real-time webhook payment reconciliations with zero-downtime ledger consistency.

AWS Global Tech | Kano, Nigeria

Software & Product Development Engineer | April 2026 – Present

- Designed and built enterprise Point-of-Sale (POS) modules using Laravel and PHP, streamlining retail operations across multi-location stores.
- Designed a fault-tolerant offline database sync mechanism, allowing retail cashiers to process uninterrupted transactions during regional internet outages.
- Implemented granular Role-Based Access Control (RBAC) and automated audit logs to safeguard inventory movements, returns, and cash ledgers.
- Engineered real-time reporting dashboards with date-range metrics to monitor revenue trends, cashier performance, and inventory velocity.

Briatek Computers Nigeria Limited | Gombe, Nigeria

Full-Stack Developer Intern | 2022 – April 2026

- Built and maintained core business web applications using Laravel, MySQL, and modern front-end frameworks.
- Optimized complex SQL queries and relational database schemas, reducing data retrieval latency on high-volume reporting endpoints.

- Integrated third-party utility APIs, payment endpoints, and automated notification services into client platforms.

Selected Projects

- **Mini Mart (Multi-Platform Commerce Ecosystem):** Cross-platform mobile and web marketplace built with Flutter and Node.js. Features location-based merchant discovery, cart management, and multi-channel checkout. (*Live on Web, Play Store & App Store*).
- **V Pay & FluxBills (FinTech & Utility API Gateway):** API-driven payment engine handling automated virtual bank account issuance, instant wallet settlements, and bill payment endpoints. Built with strict idempotency keys to eliminate duplicate transactions under network latency drops.
- **Offline-First POS Architecture:** Fault-tolerant retail point-of-sale system leveraging local caching nodes to execute sales offline and automatically synchronize ledger state once connectivity is restored.

Certifications & Education

- **Meta Back-End Developer Specialization** — Coursera (2023)
- **Meta Front-End Developer Specialization** — Coursera (2023)
- **Database Structures and Management with MySQL** — Coursera (2023)
- **Career Essentials in Software Development** — Microsoft & LinkedIn (2024)
- **Senior School Certificate Examination (SSCE)** — NECO
